Projects

Online Parking System – Smart Parking Management | GitHub **Mar 2025- Apr 2025**

Tech: HTML, CSS, Tailwind CSS, JavaScript, PHP, MySQL

- Developed a smart parking management system enabling users to locate, book, and manage parking slots online.
- Implemented secure user authentication with PHP sessions and integrated MySQL database for booking management.
- Enhanced parking efficiency by enabling real-time slot tracking and streamlined booking through responsive web interface.

Weather Forecast Web – Real-Time Weather Information |GitHub **Dec 2023- Nov 2023**

Tech: HTML5, CSS, Tailwind CSS

- Developed a weather forecasting web application enabling users to access real-time global weather information easily.
- Designed a responsive and user-friendly interface using HTML5, CSS, and Tailwind for improved accessibility.
- Delivered dynamic weather insights including temperature, humidity, and conditions to support better daily planning.

Blogging Platform | GitHub **Sep 2023 - Oct 2023**

Tech: HTML, CSS, JavaScript

- Developed a responsive blogging platform enabling users to create, edit, and manage social blog content efficiently.
- Implemented dynamic CRUD functionality using JavaScript with structured layouts and mobile-responsive UI design.
- Improved content accessibility and user experience by delivering a fast, organized, and responsive blogging interface.

Training

Core Java Full Stack | React, JavaScript, Html, CSS, Spring Boot **Jan 2026 – Feb 2026**

- Learned core full-stack development concepts including Java, OOP, JDBC, Spring Boot, and database-driven web applications.
- Integrated front-end and back-end technologies using HTML, CSS, JavaScript, Core Java, MySQL, and IntelliJ IDEA tools.
- Developed dynamic web applications demonstrating CRUD functionality, improved problem-solving skills, and practical full-stack development experience.

Certificates / Certifications

- Web Designing Hackathon -Binary-Blitz — Mar 2024
- The Full Stack Web Development - Infosys — Feb 2024
- Android Development – Technical Workshop — Feb 2024

Skills

Languages: C, C++, Java, Python, JavaScript

Technologies/Frameworks: React JS, Node JS, Git, GitHub

Frontend Technologies: HTML, CSS, Tailwind CSS, React.js

Backend Technologies: Node.js, PHP

Domain Skills: Problem-Solving, Responsive Web Design, Scripting in JavaScript

Education

Lovely Professional University **Phagwara, Punjab**
Bachelor of Technology - Computer Science and Engineering — CGPA:6.49 Aug 2023 - Present

Narayana Jr College **Hyderabad, Telangana**
12th- Percentage: 88.1% 2022 – 2023

Kendriya Vidyalaya (O.F) **Bhusawal, Maharashtra**
10th - Percentage: 73.2% 2020 – 2021
